About Boston West

Boston West originated as a 20-bay floodlit driving range back in 1993. The range proved a huge success, and with the growth of golf during the early 90s, the facilities expanded in 1995 adding on what we know today as the 'back 9' holes. Further construction in 2000 saw the completion of the 18-hole, par-72 golf course you see today.

In 2006, the business continued to grow, and with the addition of our 24-bedroom hotel, Boston West was now catering for a variety of functions from weddings to corporate events.

Fast-forward ten years and 2016 brought a change of ownership; along with much needed investment came a new focus and commitment to making Boston West the best possible venue for its valued customers.
